

LEAGUES INFORMATION SHEET

We have the Ladder why join the Leagues?

The Leagues provide members with the chance to play regular competitive games (usually four a month) with players of a similar standard. The Leagues require members to play a minimum number of games each month and so are best way to play regular competitive games, particularly if used alongside the Ladder.

How does it work? The basics.

The Leagues organiser creates the Leagues at the start of each month. This will usually be of five players per League depending on precise numbers.

The Leagues change each month with players being promoted or relegated depending on the number of points they gain during the month. Each player gets one point for playing and one further point for each game they win. This means a game score of 3-2 gives four points to the winner and three points to the loser.

New players joining the Leagues will be put in a League which the organiser feels is appropriate for the player's standard and any promotions or relegations will be adjusted accordingly.

How to join?

Members who wish to join the Leagues need to contact the organiser by emailing tavisquash.competitions@gmail.com or by signing up on the Leagues sheet on the competition notice board at the club. You will need to provide two contact details such as an email address and a phone number.

How to play

Once you are in the Leagues you will be emailed the latest Leagues at the start of the month. You can also view them on the clubs web site or on the notice board at the club itself. You will then need to make contact with the other players in your League to arrange your games.

All players in the Leagues are expected to make every effort to both arrange games and agree to times which are suitable to both players. Players who fail to play at least two games in two consecutive months will be taken out of the Leagues unless there are mitigating circumstances. It is not fair on the other players if someone does not agree to play their games.

[Entering the results.](#)

The easiest way to enter the result of a match is using the touch screen facility at the club. Simply touch the screen, touch the enter results link, scan your fob on the scanner to the left of the screen, and enter the result. You can also do this via the web site, but you must log on first.

N.B. Please remember that the result will also count on the Ladder if both players are also on the Ladder. This is all taken care of automatically when the result is entered and so you do not have to do anything else.

[Forfeiting a game](#)

If you are unable to play or you do not want to play for any reason then you need to advise your opponents and the organiser as soon as you can. Your opponents can claim three points from the organiser if they wish to but this will be at the organisers discretion and will be based on the other games played in that league. They will not automatically count in full.

[Taking a Break!](#)

If you wish to pull out of the Leagues at any time simply advise the organiser by emailing tavisquash.competitions@gmail.com

If you are ill or injured and cannot complete your games for any particular month then please advise the organiser ASAP.
